

Turbo Ventilators

Turbo Ventilators

The air inside building or shed becomes very hot and humid without proper ventilation, leading to unhygienic conditions, deterioration in quality of materials stored, lower productivity, restlessness and other undesired effects on workers.

Ventilation is crucial in removing harmful carbon dioxide gas and other unwanted fumes and replacing them with fresh air. Having fresh air in a closed building system is ideal for a good & efficient working environment.

APPLICATIONS

- ◆ Industries
- ◆ Ware houses
- ◆ Godowns
- ◆ Factory
- ◆ No Electricity Charges
- ◆ Power House
- ◆ No Hazards Like Short Circuits

REGISTERED OFFICE ADDRESS

- 📍 11-153/4/NR, G-5, Surya Krishna Apartments, IDA Gandhi Nagar Road, Balanagar, Hyderabad-500 037, Telangana.
- ☎️ +91-77020 00736, 90004 04984

FACTORY ADDRESS

- 📍 H.No. 4-61/5, Pati Village, Patancheru Mandal, Sangareddy Dist., Telangana-502300.
